rigging amount of tension for your rig. The system consists of the Extended Rig vest, a 30" x 1" standard support bar, and a 1" extended support arm that has been pre-drilled for the D-rings. Please, for the same reason, the Extended Rig vest is optimized for use with extended gimbals and/or, providing increased tension back support that allows you to carry weight further away from your body. A carrying bag is also included for convenient storage and transport of the hanging system.

front camera strapage, as the Armo Man partly mask holds your gimbal up off on its own, leaving your hands virtually free.
