

Who are we?

ARELIABLE PARTNER

In 21 years, TFS has become one of the leading players in the Moroccan audiovisual industry, providing a full range of technical services — from consulting to design, outdoor or studio production, transmission, enhancement, and storage of artistic and sports events of all sizes. In 21 years, TFS has become one of the leading players in the Moroccan audiovisual industry, providing a full range of technical services — from consulting to design, outdoor or studio production, transmission, enhancement, and storage of artistic and sports events of all sizes.

AMODEL BUILT ON EXCELLENCE

TFS has built its business model around three fundamental values that form the foundation of its corporate culture focused on excellence:

- ♦ Innovation. Every service that we deliver to our clients is unique. To carry it out to the highest standards of quality and deadlines, we imagine and design, with our German partners, suppliers of equipment and devices, the most innovative, the most relevant, and the most optimal solutions in terms of cost;
- ♦ The technical quality of the services that we provide thanks to the skills and expertise of our teams, to the technology and reliability of our equipment, our devices, and our IT and digital solutions;
- ♦ The quality of customer service. We guarantee our clients compliance deadlines thanks to the professionalism of our teams and the efficiency of our operational processes.

OUR PARTNERS

recognized expertise

The expertise of our teams, combined with a high-tech equipment fleet, ensures our mastery of the entire audiovisual production chain, allowing us to meet our clients' needs through relevant solutions.

Our know-how is now recognized in Morocco, in Africa, and in the Middle East for major audiovisual events sports, entertainment, live performances, and the production of television works (fiction, films, TV series, sitcoms, ...).

To complete our range of services, TFS has equipped a TV studio within its facilities that meets the highest requirements in terms of audiovisual equipment, soundproofing, and innovative services in decor, ...

a technical fleet of high technology

TFS currently has a technical fleet that meets international technology standards, capable of satisfying our clients' needs for technical equipment of all scales.

Our teams have the required expertise to install, operate, and dismantle, quickly and properly, any complete audiovisual technical platform, regardless of its complexity.
